Abbreviations 5-FU 5-fluorouracil 5-HIAA 5-hydroxyindoleacetic acid 5-HT 5-hydroxytryptamine 5-HT  
5-hydroxytryptamine AAA acquired aplastic anaemia AAFB acid- and alcohol-fast bacilli AASLD  
American Association for the Study of Liver Diseases AAV antineutrophil cytoplasm autoantibody-  
associated vasculitis (also aplastic anaemia ABC ATP-binding cassette ABCDE airway, breathing,  
circulation, disability, and exposure ABG arterial blood gas ABMR antibody-mediated rejection ABPA  
allergic bronchopulmonary aspergillosis ABPM ambulatory blood pressure measurement ACE  
angiotensin-converting enzyme AChE acetylcholinesterase, define at first mention ACPA  
anticitrullinated peptide/protein antibodies ACR American College of Rheumatology (also  
albumin:creatinine ratio) ACS acute coronary syndromes ACTH adrenocorticotrophic hormone AD  
Alzheimer's disease ADEM acute disseminated encephalomyelitis ADH antidiuretic hormone ADL  
activities of daily living ADME absorption, distribution, metabolism, and excretion ADPKD autosomal  
dominant polycystic kidney disease ADR adverse drug reaction ADRT advanced decision to refuse  
treatment AECA antiendothelial cell antibodies AF atrial fibrillation AFP  $\alpha$ -fetoprotein AGT  
alanine-glyoxylate aminotransferase aGVHD acute graft-versus-host disease AHA American Heart  
Association aHUS atypical haemolytic uraemic syndrome AIF apoptosis-inducing factor AIHA  
autoimmune haemolytic anaemia AIN acute interstitial nephritis AIP autoimmune pancreatitis (also  
acute interstitial pneumonia) AIS androgen insensitivity syndromes AKI acute kidney injury ALD  
alcoholic liver disease ALF acute liver failure ALL acute lymphoblastic leukaemia alloSCT allogeneic  
stem cell transplantation ALP alkaline phosphatase ALS amyotrophic lateral sclerosis ALT alanine  
aminotransferase AMA antimitochondrial antibody AML acute myeloid leukaemia AMLR autologous  
mixed lymphocyte reactions AMT Abbreviated Mental Test ANA antinuclear autoantibodies ANC  
absolute neutrophil count ANCA antineutrophil cytoplasmic antibodies ANP atrial natriuretic peptide  
AOSD adult-onset Still's disease AP alternative pathway APA aldosterone-producing adenoma APC  
antigen presenting cell APCM active physiological conservative management APL acute  
promyelocytic leukaemia APS antiphospholipid syndrome APTT activated partial  
thromboplastin time AR androgen receptor ara-C cytosine arabinoside ARB angiotensin receptor  
blocker ARDS adult respiratory distress syndrome ARF acute renal failure ARH autosomal recessive  
hypercholesterolaemia ARPKD autosomal recessive polycystic kidney disease ART antiretroviral  
therapy ARVC arrhythmogenic right ventricular cardiomyopathy ARVD atherosclerotic renovascular  
disease AS ankylosing spondylitis ASAS Assessment of SpondyloArthritis International Society ASCT  
autologous stem cell transplantation ASD atrial septal defect ASH Action on Smoking and Health  
ASOT antistreptolysin O titre AST aspartate aminotransferase ATG antithymocyte globulin ATP  
adenosine triphosphate ATRA all-trans-retinoic acid AV aortic valve AVN arteriovenous nipping
